

# Leibniz: An Intellectual Biography by Maria Rosa Antognazza

**Leibniz: An Intellectual Biography** by Maria Rosa Antognazza is a comprehensive and engaging account of the life and work of one of the most important philosophers and scientists of the early modern period. Antognazza traces Leibniz's intellectual development from his early years as a precocious student at the University of Leipzig to his mature years as a leading figure in the scientific and philosophical circles of Europe.

The book is divided into three parts. The first part, "The Formation of a Philosopher," covers Leibniz's early life and education. Antognazza shows how Leibniz's early exposure to the works of Aristotle, Plato, and Descartes shaped his own philosophical thinking. She also discusses Leibniz's early work on logic, metaphysics, and mathematics.
