The Haunted Queen

The ghost of Queen Mary, said to be that of a young woman who died tragically aboard the ship, has been witnessed by crew and passengers alike. Described as a beautiful woman in a flowing white gown, her spectral figure has been seen wandering the ship's corridors, gazing out to sea. Many believe her restless spirit is searching for a lost love, while others speculate she seeks peace from a life cut short.

Legend has it that the ghost of Queen Mary roams the ship's corridors.

World War II Service

During World War II, Queen Mary underwent a remarkable transformation, painted in camouflage colors and converted into a troop transport. It earned the nickname "The Grey Ghost" for its ability to evade enemy attacks, carrying over 800,000 troops across the Atlantic Ocean. The ship's contribution to the Allied victory was invaluable, transporting vital supplies and personnel to the front lines.

The Mystery of the Scottish Scientist

In 1942, a Scottish scientist named Robert Ferguson disappeared while working aboard Queen Mary. Ferguson was conducting top-secret research for the British government, and his disappearance has never been fully explained. Some believe he was kidnapped by enemy agents, while others speculate he met with a tragic accident. The mystery surrounding his disappearance remains unsolved to this day.
